COURT HELD A SHORT SESSION.

Schley Inquiry Adjourned to Attend Judge Wilson's Funeral.

NO IMPORTANT POINTS WERE BROUGHT OUT.

The Department Introduced Additional Witnesses in an Effort to Show that Schley Had Information of Cervera's Whereabouts.

Washington, September 26.—The Schley court of inquiry was in session for only one hour and three-quarters today, adjourning at 12.45 in order to permit its members and others engaged there to attend the funeral of Judge Wilsen, late chief counsel for Admiral Schley. Captain Wise concided all testimony. Admiral Cetton made a brief statement on recall and Lieutenam Spencer S. Wood, who commanded the dispatch boat Dupont during the Spanish war, began his testimony.

Machinist Gray, who was in charge of the starbeard engines of the Texas on the day of the battle off Santingo, also testined briefly. He said that on the day of the

briefly. He said that on the day of the battle the starboard engines were stopped and the machiners reversed.

Captain Wise was questioned at cousts erable length as to what he had done be fore the arrival of the figing squadron off Santlago inward locating Corvers's feet in piles to in the harbor. He said that, walls he had sailtsfied himself of the presence of the Span- matering? ish fleet, he had been content to communi cate his knowledge to Admiral Schley through Captain Sigahee, not considering E necessary to make direct communication

Lieutenant Wood gave the particulars of bls delivery of dispatches from Admiral-Sampson to Admiral Sculey on May 22 while the admiral by off Creatmeges. He anxious to know what Sampson's inventious when court adjourned for the day.

Washington, September 26. The Schiev court of inquiry began its accion today the having decided to force the alternoon seasion in order to permit the methers of of Judge Wilson

Counsel for the many department to by confirmed their effects to show that to miral Schler had beformation of the post ence of Admiral Coveren and his flect in the harlor at Santiago, and afternoon of the barbet this purpose additional effects of the manufacture of the santiago which were at the improvement of the confirmation of the santiago which were at the improvement of the santiagon which were at the improvement of the santiagon which were at the improvement of the santiagon of the santia

Counsel for the Bary department of a year confinmed their effects he show that the mire Rebber had information of the by sence of Admiral Corvers and his fleet in the birelot at Santiago, and attention of the by sence of Admiral Corvers and his fleet in the birelot at Santiago, and attention of the birelot at Santiago and server in sight and, as a nighter of this purpose additional officiers of the mire of them was in sight at the doing duty as soon hears in West indian waters.

Captain Wise, who commanded the sound that first interest of the barbor. In language as active as I can sensember, he said. After dinser life in the first part to the first part to the first part to the sound the correspondent to the first part to the first was coal energy to the first and their the admiral had signaled, apon starting to ask if there was call energy to the first part to take it the after was coal energy to the first part to the first was coal energy to the first part to the captain of the starboard engine of the barbadin of the starboard engine of the barbadin for the part to the captain of moderate vicaming. He was the dispersion to the captain to a first part to the engine of the starboard engine of the barbadin for the part to the captain to a first part to the engine of the starboard engine of the barbadin for the part to the captain to a first part to the engine of the starboard engine of the barbadin for the part to the captain to a first part to the captain to

made such a communication to the admiral.

"I did not." was the response.

"Did you give Admiral Schier any Information respecting the Spanish squadree?"

"Only through United Signlee." Was the response. "I did not go on board the Brooklyn at all I gave (appain Sigslee all the information I mod."

"Had you been off Santingo for a weak?"

"I was there from the merning of the 22d until the evening of the 22d until the evening of the 22d until the evening of the 22d until the system.

He asked: "From the morning of the 22d until the agrical of the dying squadron en the evening of the 22d until the agricul of the dying squadron on the evening of the 21dh, you were trying to get in touch with the enemy and watching the harber?"

"Yes."

"You saw nothing in there?"

"Yes."
You saw nothing in there?"
'I could not see any harbor at all."
'You could see around the corner of Cay

Smith?

"We saw the masts of a small vessel.

Could not distinguish what it was.

"You sent no one on shore to try and entablish communication?"

"Not at all."

"Isn't the natural condition of the harber such that it is impossible to see considerably up the harber?"

"You can see only a short distance up the harber."

"And there was nothing in sight whatever, was there?"

"Nothing at all."

The witness said Captain Sigshee had taken the dispatch beginning? "Get into teach with the enemy.

The court, through Admiral Dewey, ask. ed: "Was it your duty or Captain Sigs.

The court, through Admiral Dowey, ask, ed: "Was it your duty or Captain Sigabee's to convey the information in the disputch referred to to Commodore Schloy?" If think if was Captain Sigabee's, as he went immediately on duty and I was intercepted by orders from the commodore to take the Merrimae in tow."

Mr. Hanna: "Did you receive noy inquiry or did the commanding efficer of the fiving squadron ask you for any information at any time?"

ship?" Until just before luncheon."

"Until just before lunsheen."

"Have you anything further to state with respect to this inferview which will hear men the subject of the inquiry."

"The commedence hesitated some about giving me coal. He did not think be cauld spare coal at first. I said it was absolutely necessary; that we were almost out of coal, having unde the Yun from Ker West. He said; 'very well, go below and I will think it ever. I went below to the ward come and was afterward emised up and informed that they would give me coal. I had never before me, the admitted and he impressed up and with allowing the would get up and understand he impressed up and with around, come basic and sit down, and a unuffer of questions he asked me about Admittal sampson's latentions I was un able to answer.

"If I understand you clearly, you had knowledge of the contents of the dispatches which you delivered."

"Admiral Sampson ind not fell me what was in them. He simply fold that these were duplicate dispatches he was sending by the lows. Those duplicates, he said, he gave to use because he thought the Dupont could make better speed, I left after the lows, passed her off Cape Antonio, and arrived in Centuceus some three or four hours before she did. I left Key West at 1180 s. m. on the 20th.
"During this interciew, in which you made some stroments with respect is the sidericles?" Did he read them in your presence?

"Oth, yes."

"Oh, yel."
"Did he advise you of their centents

"The life not tell me positively what they common dore then tow."

If the life not tell me positively what they were I gathered while I was absord the flagship what they contained, but whether the seminant of the gather.
